# Just the FAQ's

**Answers to Frequently Asked Questions (FAQ's):**

## How are streets listed in the directory?

The Street Guide lists streets in alphanumeric order with numbered streets appearing first.

Identical street names are listed alphabetically by town name. For example, 200 S Main St in LaSalle would appear before 200 S Main St in Tecumseh.

Within a city, streets appear alphabetically beginning with the primary street name. For instance, Main St will appear before E Main St which is before N Main St and so on.

## How do you list streets that are referred to in more than one way?

We adhere to Canada Post naming standards, so there will be instances where one side of the street has one name and the other side of the street has a different name.

## Are unlisted phone numbers in the directory?

Unlisted phone numbers will not be provided. We respect the right of individuals to not have their phone number published. Furthermore, residents and businesses whose address information is unavailable *will not appear* in the Street Guide.

## What if someone's mailing address is different than their physical address?

We standardize each address with Canada Post standards and list the physical address in the directory. Post office boxes are only used when no other physical address is available.

## What if I do not want to be listed in the directory?

Polk takes an active role in ensuring the responsible use of consumer information and honours all requests from consumers who do not want to be included in the Polk Criss-Cross Directory. Consumers who do not wish to be listed can fill out and return the change of address form in the back of the directory, checking the box indicating that they do not want to be listed.

## Where does the demographic information come from?

All demographic information is obtained from a variety of public and private data sources.
